March 1, 1977

Dear Stan:

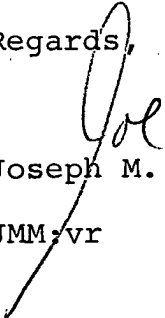

I can't tell you what a glow of pride I felt when, a few weeks ago, while watching television it was reported that you were being considered for a top job with the administration - and now you have it.

It's sure a long way from Braeside to Washington. I hope I don't sound patronizing as I tell you that you are one of my fondest memories of my childhood. Particularly the fraternal attitude that you took to all of us "little guys."

They say that cream always rises to the top and, in your case, that truth is obvious.

Good luck and every success in your new job.

Regards,

Joseph M. Michaels
